CSS 545

Initial Mockup: Numbly

UX Flowchart

```
Start: Landing page  →  Play Button  →  5x5 Guessing Grid  ⇄  View Settings
                                              ↓
View Hint  ←  Incorrect Guess  ←  Submit Guess?
                                              ↓
                                       Correct Guess
                                         ↓       ↓
                      Exit  ←  Share Results
```
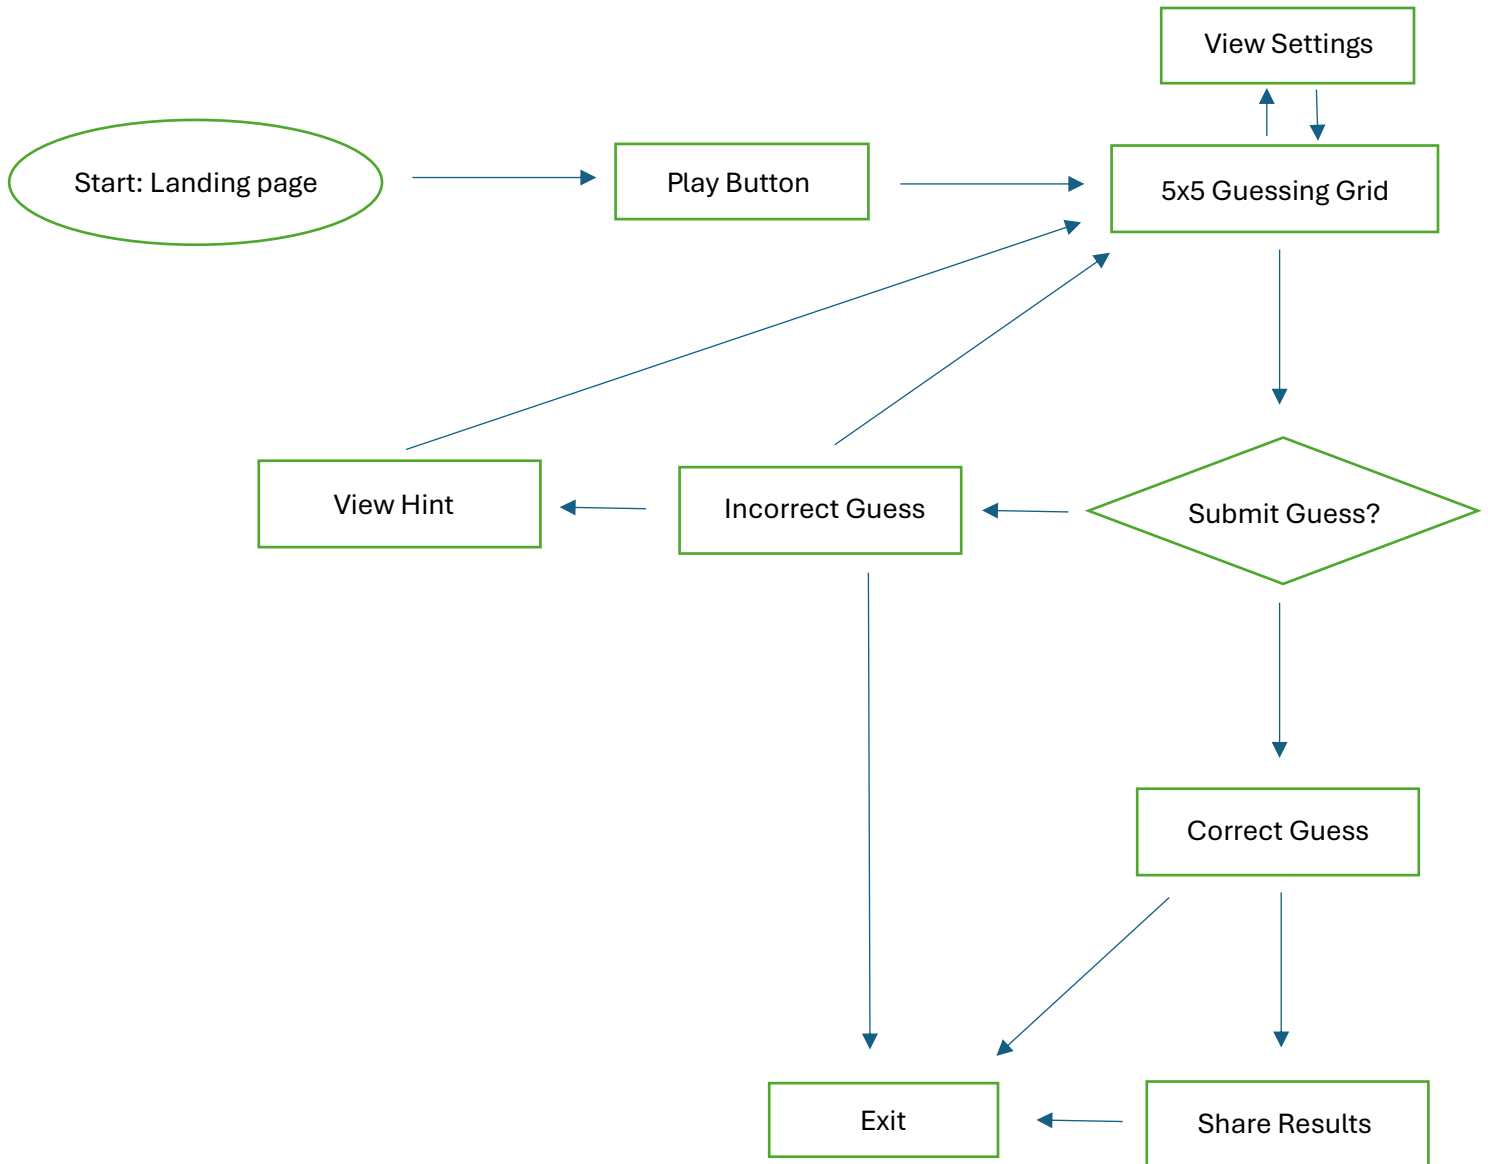

This UX design focuses on simplicity and ease of use, ensuring the game is enjoyable for all ages. Young players quickly grasp the straightforward gameplay and may make guesses at a fast pace, while older users benefit from clear instructions and an intuitive interface that allows for thoughtful strategy without unnecessary distractions. The design minimizes clutter and uses calming, easy-to-read visuals, making it approachable and engaging for both quick play and more deliberate strategy-based interaction.
